DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Specification

This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claim Objections

Claims 1-14 are objected to under 37 CFR 1.75(a) as not particularly pointing out and distinctly claiming the subject matter applicant regards as the invention. The following informalities should be corrected:

In line 20 of each of claims 1 and 2, "arms" should be changed to --arm members--.

In claim 3, line 2, "a gingival wall" should be --an occlusal wall--.

In line 2 of claims 4 and 6, "the labial portions" lacks a prior antecedent.

In claim 5, line 2, "an occlusal wall" should be -- a gingival wall--.

In claim 10, lines 2 and 3, "or other flexible material" is deemed indefinite because it does not specify a particular member of the Markush group of materials set forth in the claim and thus it is unclear what limitations such places upon the claimed subject matter.

Art Unit: 3732

In claims 13 and 14, the functional recitation that "the occlusal (gingival) tie wings prevent labial distortion of the arm members" is indefinite because it is not supported by recitation in the claim of sufficient structure to accomplish the function.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose or suggest the claimed invention, particularly with regards to the base having a vertical slot and two vertical grooves defined in either the occlusal or gingival tie wings; the resilient locking shutter having a lingula guide bar slidably received in the vertical slot and two laterally spaced apart resilient arm members slidably received in the vertical grooves; and a means for releasably retaining the arm members in a closed position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3732

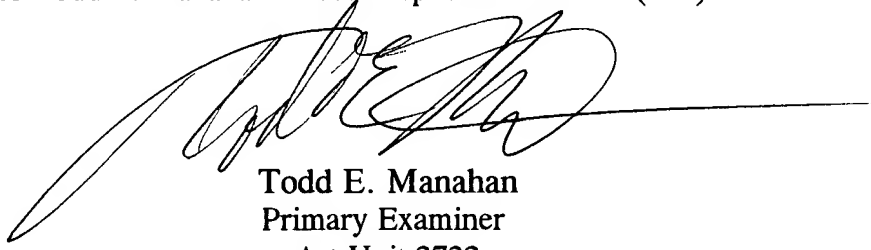

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Todd E. Manahan whose telephone number is (703) 308-2695.
